# MY STORY

## Adventure story

It was already 15 months since we had found ourselves on this island. We had managed our life very well: each of us had his own duties. We ate fish, birds, fruits and whatever we could find on the ground, in the air and in the water. One of us had even made a guitar, so we could sing and dance. One day changed everything. We saw a ship! A real ship was coming towards our small island. We couldn't believe our eyes. We began to shout and jump up and down the hill. Then we ran into the water and climbed up the ship. We met a lot of big eyes, which were watching at us with the sense of fear. We told the captain and the crew our story. And we added that we were very happy that they had finally found us, though we really enjoyed our fine life on the island, we wanted to go back home and to live in our country. It was already 15 months since we had found ourselves on this island. ## Strange notes

I was 11 years old. I loved playing a computer game called Nancy Drew, I had all its CDs. Everyone in my class adored it too.

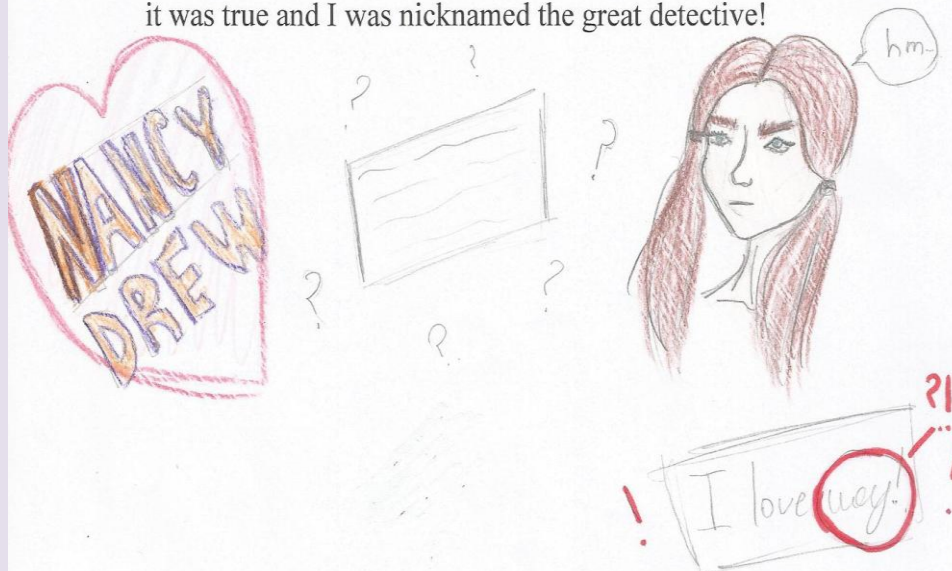

It all started with the fact that people began to throw all the notes. Everyone has surprised and thought: who is it, sends them notes, let's investigate this case as in Nancy Drew! I began to solve the riddle.

Once someone got a note that said: «I love uoy». The word «you» was spelled wrong and I paid attention to it.

One day I received a note saying that I should come to the school toilet without someone... I was very scared. But it turned out that it was just a joke of my classmates.

But once as I was leaving the classroom I heard a noise behind me. I turned around.. It was my classmate doing something in my pocket! When she realized that they had noticed her, she ran away. I thought: what did she want in my pocket?? And then I began to wonder who was sending all the notes.

The next day I went to her and asked her to write the word «you». She spelled it word as wrong as the note. I started telling her that she was the one who wrote all the notes and that I had caught her! It turned out that it was true and I was nicknamed the great detective!

### **The house with ghost**

This story happened five years ago.

In summer holiday day I left my home town, because I want to live in a small cute cottage in the countryside. About seven days I found amazing cottage in this village. He was so spacious and the seller gave low price to him. Of course I want to buy him! So, after about a week I moved into my new house. I was so excited it met my expectations. But there was one stranger thing – after I moved in this house I started to notice some stranger things: doors are closed by themselves, cupboards are creaked and things are fell down. Also, one night, I heard creak on the attic. It scared me, and I didn't sleep all the night. But one situation made me to left this spooky house.

One day, I decided to went to a small café after work. There was so friendly waiter. He asked me: 'Have you moved in this village recently?' – I answered him: 'Yes.' And when I told him where I lived, he turned pale. It turns out, this house (where I lived) was so old and locals call it "House with ghost". It scared me so much that I packed up my things as fast as I could and left this village. But I remembered one thing – when I close the door to left the house in the last time I saw the ghost, who came down on stairs.

I'll never go to this village again!

Fantasy.

«The Carpet is amazing»

A long time ago I was a little girl. I lay on the bed in my bedroom and looked at the carpet, dreaming. In my dream I was very beautiful fairy. I had a magic carpet and looking down. I saw an interesting landscape. I saw lakes, forests, rivers, fields, mountains and many other things. I landed down on a very beautiful area and I surprised. There were animals around me: a big elephant, grey mouse, brown bear, orange fox, black bird, green crocodile, pink flamingo, small squirrel, white cat, black dog, and hedgehog. All animals were together in one place. Animals were good ones. The lion and tiger bear and crocodile were not angry. I can touch every animal. Animals sat around me and smiled. I was so happy and smiled about my dream.
